

# Ramesh Inumula

Web developer(React js)

**Phone:** 7285978169  
**Address:** Dharamsala, Himachal Pradesh.  
**Email:** ramesh19@gmail.com

*I'm from Andhra Pradesh. I did my graduation with BSc in computer science with a GPA of 8.6 (core). After I graduated I was not satisfied with my software skills. Then, I heard about the Navgurukul and I applied. Here, I learned a web development course with Javascript, React js, and I hold other team leading posts. Seeking a beginner role to enhance and explore my technical knowledge.*

## PROJECTS

### Todo with React-Redux

In this project, I have learned React-Redux, I have made this project with a full environment from creating an account to maintaining his account. I have introduced a type of task that will be divided as a Today, Planned, worked type of task. I have connected with MongoDB

### User Phonebook

I have created the user Phonebook, which is works with the full environments, like creating an account and the user will use his account. I have used Express js. I have designed the UI by using the Material UI Framework.

### Hangman game

I have made a word guessing game(hangman). I have used hangman images for display. I have given some options like a hint of that word, Restart game, and levels for playing. I have used a bootstrap library.

### Signup and sign in page

I have created a signup and login page. For this project, I have used Express js. I connected with the MongoDB database and I used JWT.

## EDUCATION
